EXPERIENCE

STIC SOFT SOLUTIONS | SOFTWARE DEVELOPMENT ENGINEER

July 2023 – Present | Hyderabad, TS

- Developed the **Pizza Hut website and mobile application** using React.js, React Native, and Node.js, ensuring scalability and seamless cross-platform performance
- **Built modular, reusable, and maintainable React components**, adhering to best practices and following **Agile methodologies** for efficient and reliable releases
- **Integrated Redis caching** to enhance API response times and improve front-end performance during peak traffic.
- Integrated biometric authentication (fingerprint and face recognition) with React Native libraries, improving security and reducing login time for a smoother user experience .
- **Actively participated in daily stand-up calls, sprint planning, and retrospectives**, contributing to effective communication, progress tracking, and timely delivery of sprint

STIC SOFT SOLUTIONS | SOFTWARE ENGINEER INTERN

March 2023 – July 2023 | Hyderabad, TS

- Gained hands-on experience in React.js, improving coding skills and understanding of web development frameworks
- Developed responsive and interactive front-end components and features, ensuring a seamless user experience across various devices and screen sizes.
- Participated in code reviews and team meetings, fostering collaboration and continuous learning within the team.

PROJECTS

PIZZAHUT | STIC SOFT SOLUTIONS

July 2023 – Present | Hyderabad, TS

- **Developed responsive UI components** for the Pizza Hut website and mobile app, ensuring pixel-perfect design accuracy, cross-browser compatibility, and smooth performance across all platforms.
- **Redesigned the entire website UI** to match Figma prototypes, improving visual consistency and enhancing user experience. .
- Integrated RESTful APIs and implemented new features such as **Reorder Functionality** and **Coupon Management**, enabling dynamic data flow and enhancing customer engagement and retention
- **Contributed to the development** of in-store restaurant applications, including **POS, KIOSK, and KDS systems**, using React.js and React Native to ensure a unified ecosystem across devices
- **TechStack:** React.js, React-Native, Javascript, Node.js, MongoDB

CRM | STIC SOFT SOLUTIONS

Jan 2025 – March 2025 | Hyderabad, TS

- **Developed a CRM dashboard** using React.js to track **Daily Active Users (DAU)** and **Monthly Active Users (MAU)**, providing real-time user activity insights.
- **Integrated RESTful APIs** for fetching analytics data, managing user activities, and synchronizing events across modules.
- **TechStack:** React.js, TypeScript, Tailwind, Redis, Node.js, MongoDB

EDUCATION

OSMANIA UNIVERSITY

BACHELOR OF ENGINEERING IN
ELECTRONICS AND COMMUNICATION
ENGINEERING

Graduated May 2023 | Hyderabad, TS

Cum. CGPA: 7.5 / 10.0

SKILLS

PROGRAMMING

JavaScript • C/C++

TECHNOLOGY

React.Js • React-Native • Redux •
Javascript • Typescript • HTML5 • CSS •
WebApi • Node.js • TailwindCSS •
MaterialUI • Web Development •
Frontend Development

TOOLS

Git/Github • Android Studio • Azure •
Dev tools • VS Code • POSTMAN

ACHIEVEMENTS

Recognized with “Star of the Month” (twice) and a “Pat on the Back” award for outstanding project performance and contributions

CERTIFICATION

- Problem Solving Certificate at Hackerrank - **Certificate**
- Completed Web-Development Course from Udemy - **Certificate**

KEY STRENGTHS

- **Cross-Platform Development:** Expert in React Native for Android and iOS, reducing development time and maintenance by 20%.
- **State Management:** Skilled in Redux and Context API for predictable and efficient state handling in complex applications.
- **Integrated Firebase & Braze** for analytics, notifications, and improved user engagement
